Assisted Living Program

WHAT IS ASSISTED LIVING?

An Assisted Living facility is a senior living option for adults who can live independently with minimal needs for assistance with daily living. Its purpose is to help adults live independently in a safe environment while providing assistance to bridge the gap between independent living and long-term care.

RIVERSIDE LIONS ASSISTED LIVING PROGRAM

Riverside Lions' Assisted Living offers services and amenities to focus on important aspects of senior wellness, including physical health, intellectual stimulation, and a socially enriched community living environment. Our goal is to help slow cognitive decline and keep our seniors healthier and happier so that they can live independently for as long as possible. Families can count on Riverside Lions to meet their loved one's needs with integrity, understanding, and respect.

Each of our 27 one-bedroom Assisted Living suites offer a spacious, private three-piece bathroom and a modified kitchenette with a microwave and an apartment size fridge. Our suites also include window coverings and an individual heating and air conditioning unit.
